Dear Dr. Heller:

I felt a very profound happiness upon receiving your last letter in which you tell me about your visit to Mexico.

Your presence will certainly be welcome as well as an encouraging solace that will strengthen our bonds of friendship.

You will realize that your taking me to Mons. Thuc (q.e.p.) for being undeservingly consecrated was not in vain.

Take your time when you come I want to take you to the most important places we have rescued thanks God.

I will celebrate the masses you ask me with great pleasure and I tell you that I always pray for you and your family every time I celebrate a mass.

I have received all the checks you have sent me and I have been able to buy a small pick up with which we will continue working in our apostolate. Thank you so much for everything, for everything.

May God bless you and your family and I ask God that your sons and daughters be as good christians as you are and, as you, that they continue defending the true faith in spite of whatever sacrifice it may take.

P.D. Let me know the date of your arrival beforehand.
