January 8/88

Dear Mr. Heller!

Happy easter for you and your dear family! We are happy with the photos of the dear Hibernica Christina Maria! Congratulations and thanks you for the photos I have in my desk! We wish all the best to the dear baby and all you. Bernard is also an excellent boy, very formally, he! Surely you had a happy Christmas with a very occupied Santa Claus!

I want to comment the points of your letter.

1- First, it is a very very good idea to have a congregation of orthodox priests in Germany. But at this, I think it would be good to don't wait very much time to give someone in Germany the episcopal orders. There must be someone able to receive them soon, no? I think the problem of carency of bishops is the worst in the Church, as only they can give secundum catholic doctrine the orders to priests.

Now, about the catholic bishops of the mgr. True succession, we have no hope to obtain the union of them, first. second, it is sad to say this, but they have no enough

2

energy, personallity, and preparation to do an universal "impact" as Churches needs in this moment.

I think that it is necessary that a little "equip" or College of catholic bishops must be prepared, well prepared, to present them in a future, - not very large time - surprisibly to the world, speaking in the name of the truly Church.

Now, is what fore then a bishop in Germany? To preserve the succession! And not to be only attending to Congr. Common or other. The bishop in Germany could be of all your confidence, - that is our confidence - secretly ardencided, and keep him for the future when other priests were prepared. A selected number of six or fine well prepared bishops is enough I think, - if there are more, more; to call the attention if the moment is good, in europe, where people understands more, where the battle, in diverse ways, is given in intellectual groups.

I think if you have candidates it is not good to live pass more time. I look something as ~~an~~ a "going down" of anims in europe in traditionalit centers and activities. It is necessary a "conviction" and the way are the bishops to give the truly battle too!

Well, this are only same points of opinion. Mas. Carnova thinks the same. That it is urgent to have more bishops. In secret while it is possible to have an "equip".

Mas. Carnova is working very much. He attends as you know 18 centers! He is tired. Every day more people come to look for him and our correspondence in more and more. We hope our Lord preserve him.

I want to tell you that the progresist bishop of this diocesis came to visit me offering friendship and help! He invited me to have peace to do the peace with them! I remember to him the most great heresies of his church and gave him all my books about the theme. After this he has no hope about me! He came in Christmas and got a good "sermon" for the pertinety. I confirmed that this man knows perfectly the mistakes in they are but want to stay in them, and to quiet their conciences they want to silence us! That was the impresion this "pseudo bishop" gave me. He was a year ago in this diocesis.

My mother sends you and all friends her greetings, also for your family, and thanks for your kindness all!

Cordilly yours
 I. L. L. L.
