Dear Eberhard:

On June 18th. Festivity of the Sacred Heart of Our Lord Jesus, Bishopp Moises Carmona consecrated Fr. Roberto Martinez and Benigno Bravo. He should be sending you the curriculum vitae of both and photos.

I also want to give Gloria and my opinion regarding that candidates from schismatic sects, like Brother Joseph Maria, whose curriculum vitae has been sent to you, should not be consecrated. Our bishops do not want to consecrate this Brother Joseph Maria, whom as made bishop by the Old Catholics. He is a seer, he claims to have a message from Heaven that he should be a priest and a Bishop. Also he wrote on a letter that the Catholic Church recognizes consecrations from schismatics and heretics, this is false. It happens that he is a personal friend of Bishop Musey and Fr. Jones, but if you have received the suggested basis for consecrating bishops, schismatics have no room as bishops in the Catholic Church. This is the opinion of Saint Ciprian, regarding schismatics and heretics, reduce them to lay condition.

Regarding candidates for priesthood from Ecône, actually they are schismatic. This presents a future problem since there are no possibilities of any collaboration with them.

Kindest regards,

Anacleto  
Anacleto.
