Dear Eberhard:

Perhaps you have received now the letter from Gloria where she proposes you the convenience of organizing a visit of Archbishop Thuc to United States.

We know that His Grace is very concerned about the Seminary. Well, there is one Seminary already in USA, that of Fr. Luis Vezelius, whose curriculum vitae I attach. As you know the two mexican Bishops invited by Bishop Musey had a meeting with 11 traditonalist priests. They became convinced, there is an strong controversy in USA catholic newspapers about the consecrations. The american catholic priests are efending the position of Archbishop Thuc.

In my opinion, if Bishop Geroge Musey and Fr. Vezelius and the other american priests invite Archbishop Thuc, he could visit this Seminary, probable endorse it, and also personally consecrate Fr. Vida Elmer, Fr. Vezelius, at least.

We have a problem with Father Daniel Jones. He is supporting Archbishop Thuc, but he is being convinced by some american protestants that the white race descends from the 10 lost tribes of Israel, and that USA is the nation chosen by God. All this with free interpretation of Holy Scriptures. I have written him, and I expect he will reject those theories.

But actual conditions in Mexico, specially the economic crisis make it imposible to stablish a seminary, besides we donot have priests to take care of seminarists. I donot think you can find priests in Europe for a Seminary. And if already there is one in USA, where there are 50 traditionalist priests, 10 with Lefevbre, 11 with Archbishop Thuc, I see the center of gravity of the battle now in USA.

Kindest regards to your family, and all our friends,

Anacleto
Anacleto.
