Dear Eberhard:

This is a friendly comentary and opinion. Re: Cardinal Lienart. Enclosed the document on which same Archbishop Lefevbre based his statement that Card. Lienart was a freemason.

The magazine "Chiesa Viva" reproduces an statement of Marchis de la Franquerié, where he says that Card. Leinart was a freemason. But he does not prove it.

Many years ago, during the days of Pius XII, a high Vatican oficial recomended us when acusing an adversary, saying: "He acts like a freemason" or "He acts as a comunist". Unless we had the evidence, a proof.

These days a book is circulating in Mexico, saying that John XXIII and Paul VI were initiated in a lodge at Paris, the writer is a freemason but he shows no proof.

How can it be proven also that Card. Lienart was a satanist, and involved in balck masess? No doubt some fremasons are initiated in luciferianism, and they perform black masses. But this is dificult to prove on Cardinal Leinart.

I am not defending him he acted as a freemason, yes.

But Archbishop Lefevbre said! Leinart was a freemason, Chiesa Viva published proofs and his masonic garments! You can see the photostat, there is a photo of Cardinal Lienart, yes, and a drawing of masonic temple.

I hope you have had a Merry Easter.

Today, our newspapers published the invalid excomunication of Archbishop Thuc, G. des Lauriers, Mgrs. Carmona, Zamora, Martinez and Bravo. Gloria Riestra informed them last night, in order that they donot become involved with newspapermen. Gloria is in the opinion that they must prepare a declaration, signed by all of them, including the amarrican Bishops. She will writte you about it.

Kindest regards,

Anacleto
