

*importante, urgente secreto*

München, 19.4.84

Excellency,

yesterday night I have heard from Bishop Vezelis that Mgr. Musey wants to consecrate new bishops. - I am against this plan. Here are the reasons:

1. After the secret consecrations now is all public. Normally the bishops will be consecrated by a papal mandatum. We don't have a pope. But the consecration of a bishop is a case of the church. And the church now is represented perhaps by all bishops. Therebecause a consecration must be discussed among all bishops. That has not happened.
2. In this time, in which we have so much difficulties, it is better to wait until the problems are declaired: which power the bishops have, how it shall go on etc.

When we now making still more stupidities all people are laughing about us. And all the time in which we have worked very hard has been waist time.

Please try to understand me. I believe, Mgr. Musey wants to act like a private man. And this brings nothing for our resistance. Please phone to Mgr. Musey and bag him still to wait with the consecrations.

All for the honor of Our Lord

Sincerely Yours

*E. Heller*
