+!

Dear Doctor Heller,

I adress you for a help about an acquisition of sacred oils for a baptism. Our Fathrer Špinler has some ones but they are old and top of that he doesn't know from somebody he got them! For this reason I entreat you to get the sacred oils for about 25 people if you have any possibilities (for example Father Rissling or somebody else). Maybe Father Špinler will write you of these ones, he told me at least.

For two years I have been preparing almost 20 people (families with children) to a baptism and now they could receive a baptism in late October, I think. It is a very primising group from west Bohemia (about 300 km far Jablonec).

We still have heavy problems with Father Špinler. Recently he wants to join Oravec again and in fact to destroy our community. Could you, dear Mr. Doctor, write to him who Oravec is? So far only I and one of mine friends warn him against Oravec but it is effective only for a short time. Therefore, I think, your intervention can be succesful. Deo gratias!

Do you know something about a consecration a new Mexican bishop? Father Krier told me about it two months ago but I don't know what's a contemporary state.

Thank you very much for everything.

In Christo et Maria
