

Jablonec n. N., 14. 12. 1998

+!

Dear Doctor Heller,

thank you very much for holy oils! I stay in debt you for them and I hope I will be able to pay for them by the next visit of Mr. Lorek.

18 people were received to the Church in Jablonec during three Saturdays last month. They are very pleasant people with a right and strong belief. I and one of my friends prepared them to a baptism for one till two years. Last months they have been coming to Jablonec every week in two groups because our chapel (in the Father Špinler's flat) and my flat can't take hold of so many people.

Almost everything was O. K. But only one very serious problem lasts and it is the Father Špinler's behaviour! First of all - Father didn't prepare catechumens at all! He had no interest! Only recently he talked during his sermons (or „sermons“) something from a catechism but it was predominately unintelligible for everybody. And top of that I had to force him to do something at least in that case because he didn't want to do anything. As well he did no preparation for a matrimony (five couples), he only said anything to two couples but as one of my friends told me Father's speech was very muddled and they couldn't know anything from that.

But the worst of all were rites - a sacrament of a baptism and a matrimony. First rites were to start on Saturday 31st October. In spite of telling him every day before the day by two catechumens among others (they took part in Masses) that the start of rites is at 8 o'clock, Father served a Mass before that time (!) and he didn't want to give sacraments our friends!? I must remark that our friends came from west Bohemia - 300 km far (!) with two little children (altogether 6 people). They had to give up before at 4 o'clock. It was incredible! Later he agreed but wanted to give them only a baptism and not even to be present at a matrimony. Finally he agreed even with a matrimony but he refused to serve a Mass for new married couples. Still before he denied strongly the second or third baptismal names our catechumens. It was incomprehensible!? Finally we forced him to agree.

Father was mad directly. He cut out systematically parties of rites (also exorcism!) and I and one of my friends had still to indicate him what he had to do, especially what he cut out. Five baptisms, two matrimones and life confessions lasted over five hours! It was terrible! Our friends including children behaved courageously and some of them prayed to God and to Our Lady for help. Father acted as he was possessed.

Next Friday we learnt what a right cause maybe was of it. Father admitted that he met Oravec again. He wanted to join Oravec and therefore he recall a lampoon against Oravec and Davidek and against Teilhard and the Evolutionary Theory too... It seems that the satanist Oravec has a strong influence to Father. I and two of my friends (from Jablonec) sharply refused the Father's behaviour. First he didn't want to receive our criticism but finally he started to tremble and asked us to pray for him! A day later - on Saturday 4th November - Father didn't show any possession fortunately but the rites were one confusion again. They also lasted almost five hours!

In the third and last Saturday a situation was better a little but even so Father demonstrated again his absolutely inability.

The Father's behaviour is unmaintainable. He is demonstrably under an influence of a devil, from time to time at least. He jeopardizes very dangerously believers especially catechumens. For example he wonders why catechumens come to the Mass again? He is doing everything to disgust them the catholic belief. Fortunately „our“ catechumens were indicated to the dangerous and heretic behaviour of Father in time. But it's awful if we must warn newcomers against a priest! He is very dangerous for naive people. The only solution at this time is to pray for new priests and bishops for our country. So far - as I want to be convinced - the Father's Mass and Sacraments are still right, but nobody knows what will be later.

I appologize very much, dear Doctor Heller, for such my long description of the very unpleasant events of our last time. But I would like to warn you in front of the very evil behaviour and opinions of our Father. You must warn the other acquaintances against him. I'm convinced he will finish in a mad house. A question is how long it'll last. Till that time we must have a new orthodox, eager and cogitative priest (or rather priests!). And it is our main task for the next future.

I appreciate you and your Family, dear Doctor Heller, blessed Christmas and many Divine graces in a New Year. Deo gratias for everything!

In Christo et Maria

*Brigitte Heller*
