Dear Sir,

I am very thankful to you for sending us EINSICHT. Years ago I conducted a journal on the same theme on the same name INSIGHT.

I am a little surprised that you didn't think of asking us to print EINSICHT which I could have done. Perhaps you do not know that we print and mail a publication of a similar nature even today. This is titled THE WAR IS NOW! It is now in its 12th issue and we have produced and distributed 9 of these. The author as you will find is Hutton Gibson in Australia. He sends us the typescript. We print it into a journal and airmail to an expanding list of subscribers in many countries, West Germany included.

I wonder after reading your May 1980 issue which is in English whether it might be possible for you to contract with us for a similar project in regard to EINSICHT. I feel you might find such an arrangement advantageous both from the cost point of view and from having your publication printed, instead of getting it cyclostyled. I am enclosing a copy of THE WAR IS NOW! Its proofreading, layout and general production have been well commented upon by readers and others in many countries.

I have entered your address to receive a copy of THE WAR IS NOW! regularly.

The enclosed brochure lists some of our other publications. Please favour us with an order.

Yours sincerely,

Leo Panakal
