Dear Dr. Kurt Hiller:

Today I have received four documents of "Deutsch Sudamerikanische Bank" with diverse quantities destined for our priests and me. I suppose you are sending them in representation of the group of "Einsicht" -- that have offer us their financial help (as days ago write me Herr Dr. Heller), after he know the problems we have -- with the petrocincators of the "Union Catolica Trento", because they pretend to obey my silence about the theme of de Vecency and the claudication of M. Lefebvre. I have not accepted their propositions. And our priests are on the same line, thanks to God!

Your help is very oportunity for us, specially now, for me, and your must know our situation. - Your help comes to me as a sign that God -- as I always have experimented--, never leaves us alone when we are giving all por Him, including acceptance of the suffers of seeknes -- with the preoccupations of the high costs of medical treatments, (specially now for my mother), without knowing us -- absolutely from where can come the necessary help.

You don't imagine in the case of my mother and me all that signifies your kindness. This fact and the future succes favorables to our love Church, give us in meedle of our numerous pains celestial and human -- counsels, and remove our forces to continue in the way of the debt of the love to Jesus Christ, debt to sacrifice -- all in this world, for the triumph of His Kingdom, cause that is the same for what you and your friends give the -- battle, now, us with you under the same flag!

As I wish this letter arrive to you as soon as posible, I give you in number of the priests -- and friends our thankfull, and I will sent Father Carmona the correspondent documents, and he will write you soon; I am sure.

I am sending copy of this to Herr -- Dr. Heller and Herr Moser, and I Will write them also as soon as posible, D.M. To finish, in number of my mother and mine, ;thanks, again!, and God bless you, and your -- fight.

In your prayers remember us, that we pray for all our friends, and more now for you all, -- that God has put intempestivly as a star of hope in our way, when it was turning more and more dark before knowing you.

I have much pleasure you to consider me your efectivly friend and sister in the divine -- Hearts of Jesus and His Sacred Mother.
