

Tampico Tamps. 10/12/81

Dear Dr. Heller:

I have received yours of 25 Nov. -
and I am writing about it here.
About F. Zamora I tell you in
my first letter. I write this by hand
because I am sick ~~in~~ bed. It is
frequently. - It will pass ago I hope.
Forgive my mistakes please. I am
remembering my English.

! Entschuldigen Sie, bitte!

F. Zamora has been very (occupy) busy
but he is going to write to you.
As he is in the "diocese" of ~~Merida~~
Arco he emits the correspondence,
but when he goes to Mexico he will
send you a letter.

I have also received letter from
Herr Waidel. With much pleasure I
will answer him, and I hope I can

send the article about Lefebvre's visit.

Now we want ask to you for an important favor!

We need to have complete the Canon of the antique Church about the IMPERFECT-COUNCIL. This is as you know, that council that in the case of an antipope or in absence of a catholic Pope can do several or only one of catholic bishops, if the situation is so bad that there are not catholic cardinals. Then, these bishops, or one, can name the Catholic Pope.

We, with Father Saens also thought that this is the only solution. The doctrine about the Imperfect Council is contained in the "Código de Graciano". I mention the Imperfect in my books I sent you at pages 80 a 85, and the Imperfect at page 292

It is in another pages I don't remember,
also. It is the doctrine that San
Antonino of Florence defended.

Now we have not permission
to see the libraries of the Church,
and also these have been destroyed
in many seminaries and Churches!
We have think that you can probably
look for the Canons of Gratian
or another books where is contained
the "Imperfect Council" doctrine.

We need to have the clear
references about all this questions,
because we defend it but we have
not the exactly references as it
must be.

I am writing to Her Wibel.

In 14 of this month F. C. and I,
are going to that city of the
University to speak with some
Fathers that had accepted a visit.

Merry Christmases!

yours in Jesus all
many
Gloria Riester
