

May 26. I... because I am not well. I have received... Tampico Tamps., may 25, 1982 documents of the... great confusion... I have called to... and he says it is... will appear with them to... I think. If you re-... it is not the right. I am... this full of mistakes.

Herr Dr. Eberhard Heller  
"Einsicht"  
Germany

Dear Dr. Heller:

Some days ago I wrote you. I think my letter is now in your hands. I write you now for an important question. In last days I have been thinking that we have not given necessary conditions for the candidates to receive the sacred consecration, and also necessary rules to secure the fidelity of the new bishops. This is because all has been a little improvisate on account of the difficult circumstances we have do all this, but I think we must have "laws" to be sure that we can have defenses in necessary cases. Someones think that I am a passionated of laws, but I think that without them, if with them humanity is a "caos", I say, without them what could it be? And in the present situation conditions and laws are urgent.

So, I wrote the "Conditions for the admision of candidates to receive the sacred Episcopal Consecration", with eleven in total. I read the document by phone to Fe# Mons. Carmona and not only he was unanimously, but he the same day wrote an "Oath" that each one of the candidates will accept before their consecration. Mons. Zamora should know the document in last sunday when our bishops founded themselves in México City for travel to the United States. Ing. González also accepted it. But it is only an "assay"; we need Excelence Thuc opinion and yours also, please Mons. Musey should receive a copy from our bishops. I beg you please sent Mons. Thuc the "Conditions" and when you have his opinion and yours, write us please to do effective our "laws".

We have a little problem about this, and it is that I can not translate the document to english for you now, because I have new bad syntomes of my seeknes; fever and extenuetion and the hard aches don't let me work as I need and as I want. I think in this situation that worst is to do nothing. "Do it as you can, but do it", is my "lemma" for this days. I hope our good friend Herr Moser should can translate the document for you as soon as posible.

About my seekness be quiet. I have very good doctors that are with me 24 years ago in the battle for my life, since one of my worst "crisis", and as they are also friends, and the principal the "lider" of the local group of traditionalists, they do all they can for me. We have only to hope Our Lord will and accept it with peace and love, with His grace. And if we can, with joy ~~eee~~ too, and sense of humor if it is possible.

Here we in the Union we continue with problems, the worst, that the old friends are not giving us the help, as I told you in my last. The petitions were a few, included the traductions (translate) of another idioms of documents., etc., We are doing all with our own money, spending the less money in telephono, correspondence, necessary travels and so many necessities.

My mother sends you her salutes; she is nos very sad for my seekness; she fills very alone and she is not well. Pray

May 28.- I continue this now because I am not well. I have receive "Trento" the exemplar with the documents of the consecrations. The impresors have do a great confusion of all, putting the themes in revolution! I have called to the friend that in Mexico has this work, and he says it is a mistake of the impresors, that he will speak with them to do another edition. Here is demon's hand, I think. If you receive one of this exemplars, it is not the wright. I am sending here one of this full of mistakes.

It seems all is against us. You have problems with the friend that is your authority, told me in a telephone conversation Herr Moser; well, we also have problems with our patrocinator, but the worst for me, is that I have personal problems with Ing. Anacleto González Flores. He is a very good catholic, a very good man, but he do things of his own will, actuating in independence in trascendental questions sometimes. And he puts me in serious problems because I am the secretary and Press Comisionated, and I have to explanate for example now, that "there is not any"Defense Comision of Trento", invention of the Ing. that appeard in "Ariete" with an insulting article.

I don't tell you this to talk against my friend the Engeneer. I think you must know this things because it is not impossible that I death in a short time, and if God permites thi you must know ~~or~~ our human defects, for the good of the Cause.

This is the motive what I think we must have condition for the candidates. Nothing without knowing about all at this respect Mons. Thuc and you, at first. And please, I beg you to communicate us, me too, all the questions that now compromit all us, in doctrines, in decisions, etc., I am sure that you and us can bee always in accord, and if in something not, we can study the question as good catholics that only look to the good of the Saint Church.

As I want this go to you today, I leave another questions for a next I must D.M. sent you with the curriculum of three fathers: Esteban Lavagnini, párroco of Our Lady of Monte Sacro; Father Roberto Martínez, párroco that was secuestrated and hurt by postconciliar, but he return to the temple no obstant menaces of death. After this he become seek and went to his home with his family, but giving Mass and sacraments to several groups of Trento. The another father is Benigno Bravo, who also has been menace, but he is in the Sanctuary of Christ of Pardon, where was father Martínez. This priests are good candidates and I thought in them also when you ask us, but we -- me in special, think that it was not good to consecrated all before seeing what results with the first bishops.

Mons. Carmona wanted to write a public Declaration at his return of the United States. I said him I think it is not time yet for this; first we must have another bishops, to be eight or ten, and we must have instruct our people about the doctrinal questions that envolve the consecrations. ¿What do you think about this?

My mother sends you her salutes; she is nos very sa for my seeckness; she fills very alone and she is not well. Pra

for us, please, and we beg the benedictions of Excellence Thuc, to whom we sent special regards.

When you receive the "Curriculums" please sent us by a little letter your "beneplácito", I say, Mons. Thuc at first. If we are compromit with you in this, I hope nothing can succeed out of order. And this "law" that compromit our bishops to sent to you the curriculums, should give us time to examine the candidates of another countries. Human passions can give mistaken influences, you now, and many another things.

I am sending with this a letter for Herr Moser, thanks for give it. And a foto we took when he came to our house that is your house.

Please give Herr Moser the copy I am sending you of the conditions. So, I shall be sure that he has it, and no expect Mons. Carmona sends him one. Mons. will sent you the Oach.

God bless you and His Saint Mother,

*Glenn Priest*  
*De Wolff*

P.D. In the articles I sent you for "Einsicht" appears my name as if I were the wife of one Herr "de" Wolff. It is because my second nickname is "De" with capital "D", De Wolff. I beg you please to see in the future they put it correct. Thanks very much.

As I want this to you today, I leave another question for a next I must D.M. sent you with the curriculum of three fathers: Father Roberto Martinez, Father Roberto Martinez, and Father Roberto Martinez, but he return to the temple no one and part by postcard, but he return to the temple no one. After this he become seek and went to his home with his family, but giving Mass and sacraments to several groups of Trento. The another father is Benigno Bravo, who also has been messe, but he is in the Seminary of Christ of Parso, where were Father Martinez. This priests are good candidates and I thought in them also when you ask us, but we me in special, think that it was not good to consecrate all before these seeing what results with the first bishops.

Mons. Carmona wanted to write a public Declaration at his return of the United States. I said him I think it is not time yet for this; first we must have another bishops, to be right or ten, and we must have instruct our people about the doctrinal questions that involve the consecrations. What do you think about this? My mother sends you her salutes; she is not very sad for my sickness; she fills very alone and she is not well. Pray
