Dear Dr. Heller:

I am writing one large letter to you about the Seminary; I expect the telephone call of Herr Meser, but I am writing all about the question. We have Seminary! You will see in the letter that tomorrow if God permits I shall finish and send you.

I had the preoccupation of send you the curriculum of Father Lavagnini. All, everybody here is unanimously in accord to be that he must be consecrated, because the question of the mis-ter Martínez is not an impediment after father Lavagnini is in accord for break with him. He has suffered very much to be a priest, and after to continue with the real Church. He accepts to wait the two months. Only Exco. Zamora is not accord; we know that he wrote to Mons. Thus about father Lavagnini. Well, I beg Mons. Thus to consi-der this question looking at the numerous "mérites" of father. He was very need because the Sanctuary and the parorquial temple were in very bad situation for there antiquity, and many another things he needed, so, he beg for help to Sr. Martínez that accept to help him, but this don't continue.

When the today bishops Sr. Zamora was in the time of the "preuve", "prueba", that Union Trento puts to priests that wish to come in, father Lavagnini gave all his help to fray Zamora, and they become great friendships. We bogg God that if the father has accept the conditions about his "impediment", he become accepted to receive the sacred consecration.

Certainly, I was preoccupied thinking in the scandal of the friendship of father L. and Martínez, but if this has been concluded, I don't see impedimento. All contrary. All we comitt errors; what should be if we could not rentifie?....

Well, it shoul be a great and good surprise all about Seminary! Thanks to God. Salutes for friends.

I am in Christ your friend and sister,

Gloria Priester
