Dr. Eberhard Heller  
Munich,  
Alemania

Dear Dr. Heller:

Two days ago I received the chek for \$ 481.80 dólares. My mother and I thank you very much; the chek was at the name of Dr. Kurt Hiller; God bless you for your charity; you don't know all what your help signifies in our situation. ;Thank, thank very much!...

I am sending you the curriculum of Fray Vezelis. We are waiting for the answer about Father Lavagnini and father Elmer. Our bishops, from today, will never consecrate any candidate before having the approbation of Mons. Thuc and you.

Fray Vezelis has a magazine. "The Seraphic", as I read in his curriculum. I hope he will send it to you; Ing. González Flores told me that he is writing about the vacancy. It is very good for us. But I insist that if the Seminary of Fray Vezelius is accept as the oficial Seminary of Mons. Thuc, one of you should go to have a reunion with Fray V. and the future professors. Mons. Musey should be present two. We hope that it will be possible the travel of Mons. Thuc to U.S.A. consecrating there Fathers Elmer and Vezelius, having a pontifical Mass, and the benediction of the Seminary. This with a Declaration given to the international press, could be an exit and help to extend our movement. I also think that Mons. Thuc, our bishops and we all, don't must give "interviews" to the press, because they change words and add things one don't say. It is better to give them written Documents, signed by the person solicitate for interview".

In "Trento" of april I put in the first page your article "Only we want is the Tridentine Mass". As I told you, we have difficulties in the publication, with the impresors and with the patrocinators. "Trento" is appearing very retard. In this exemplar I put a little introduction to your article. In it I say that "we publish an excelent article of Dr. Eberhard Heller, director of the german magazine "Einsicht". That This magazine is publish by the only groups that in europe sustain the publishment the same thesis and appreciations about the actual problem of the Saint Church, that the "CATHOLIC UNION TRENTO" in México. Another groups in europe the talk also of "Vacancy in Saint Siege", but they recognize the legitimacy of the elections made by the "conclaves" that had prolongate the chism, electing the "ultra modernists" Juan Paulo II I, (of chert during) and Juan Paulo II, of whom they recognize that he sustain heresies after his election, but without accepting that having before his election the weight of "postconciliarism" he was not able for the election, all this add the reality that the electors were chismatics.

Our identification is, so, total, with the german groups, and from today (DM. Dies mediante, If God wills) we shall have an interchange of articles, for catholics can comprobate that not only us, after the exposition of Father Sáenz y Arriaga, are whos sustain with reasons in accord with the doctrine, all that we have exposed publishment about the crucial problem of the Church

by the usurpation of the Saint Chair, and about the mistaken actuation of persons as Menseñor Lefebvre, in whom one day w& many of us had put our help.

Dr. Heller's article expose the realy of a situation 3-evident and duleful Here is it".

We continue waiting the decision of our "patrocinator" in Guadalajara. My telephone is not right five days ago; I don't know if you have intented to call me, but if not, you have the letter with the answer about the seminary.

NEWS: I have receive a letter minutes ago, where Ing. Anacleto tells me that Mens. Carmona and Mens. Zamora will go D.M. to Rochester where is Fray Vezelis to consacrate him, and Mens. Musey will go also; perhaps they will consacrate Father Elmer two; this will be in august 24. Ing. and I hope our idea of Mens. Thuc coming for this succses could be good. Father Elmer continues his "polemic" in defense of the vacancy, and he has been elected by eleven priests that know him, to be the bishop they want to depende who; this will be a very good act for the union of the priests of our thesis in the United States.

I finish now to send this. We pray for all you; pray for us, please, while we wait for the answer about the candidates, Elmer, Vezelis, and Lavagnini.

Yours in Jesus Christ and His Divine Mother,

P.D. I send a little letter for Dr. Hiller; I thank you to give it to him please.
