Dear Dr. Heller:

I have had a very bad days with my heart, and problems with the person that helps us in the home, who goes to put my mail; I don't give it to anyone more and this person, a young woman went to visit a sick familiar days ago. So, I am sending you now the article that father Bayman is sending to the groups; I wanted to translate it to english but I could not. So, I send it to you for not loose time, with my article of Lefebvre's contradictions.

We have do an investigation about father Cornelio Bayman. He is a holand. He was two years with the lefebvrists in one of his houses. He came to Mexico and lived in the village of Puruarán, Michoacán. Puruarán is an aparicionist center, where they say that the Saint Virgin appears to visionaris. The first died a year ago, and now there is a young woman the principal of the group. There they are "spiritists" and the woman is a "medium". They have strange things, we don't know if diabolic or "trucos", as a doll that "speaks". This things begun about ten years there, and the village is call "the New Jerusalem". There is a priest call Nabor Gárdenas; that accepts and make propagand to all this. Television enterprise was do days ago to this people and to ghe father that says all is truth!... We see that there is a good way to do money, because about 300 busses from disctint cities go each week there, and the group has a lot of places there to do houses, and houses for sell, saying that the Saint Virgin says that all those that live in the new Jerusalem, will be saved the last day of the world.

I think you may know all this because there is a group of persons, of the press and the television, that are looking for strange things as this, to gane money with scandals, and the worst is that one in the television days ago said that in the temple of Santa Rosa in Morelos there was a case similar. Santa Rosa is one of our churches. After a periodist wrote in "The Press in México" city that "fathers Carmona and Zamora were in the group of Puruarán". We sent an aclaration and the newspaper published it

I shall give notice of this question, in next days. Well, about the information of father Bayman, that attacks you and me, and is with Lefebvre, he is living now in a little village named "Apaseo el Alto", in Jalisco State, where we have the must traditionalists number. He has there his "quarter" to work against us. As you will see, he has very good information. Anacleto thinks that he is not who writes, but the lefebvrists fathers, our enemies. There are motives to think so.

I finish today with greetings for Excelence Mons. Thuc beging his prayers, and for all friends, also, in union in our Saint Church, Aufwiedersehen!

P.D. Anacleto called me by pphone a minutes ago, te tell me that the sixx boys that are going to the Seminary of Mgr. Vezelis are in Guadalajara now the friends of Guadalajara helped looking for the "visas" and the boys will as "turists" for a month. Once they be with Mgr. Vezelis, he will do another things he knows to do the boys permanence there. Pray for this, please! Three boys are from Acapulco, sended by Mgr. Carmona, and three from Guadalajara. The parents of another boys didn't want to leave them go, a cause of the man problems now, but we hope another boys would go in next time from Mexico.

Another question...- I forgot to tell you another important things about the succes of Puruarán. The television had an enterpri with the postconciliar bishop of Michoacán, and he said that the on- ly way he has with those people, "ignorants," including the father Nabor Cárdenas, was the "dialogue". That father Cárdenas was craisy. And that he, the bishop, only can make those people fill that they are their love brothers!...

About the heresies and all that there succed, nothing!

This things are that I was forgetting. In Puruarán they have an image of the Saint Virgin, painted in a peace of man skirt! they say that the Virgin is INCARNATE there. The new vident, María de Jesús, is waiting a baby. She is not marriage, and she does not know who is the father!... Well, the worst is this: they say that the Saint Spirit is the baby's auctor, and if the baby is woman she wi- be the saint virgin, and if is a man will be Jesus Christ. It is te- rrible to repet this stupid things, but more terrible to know that the bishops of the new church are fating against us, but have this diabolic people as their dear brothers!

Another thing is that in Puruarán they say they are traditio- nalists. Father Cardenas say the Tridentine Mass. This have done that thousand of people ansioux of the old religion go to this cen- ter only looking for the mass, and finish falling in the another things. But it is not all. Two jesuit fathers helped to give name to Puruarán; two famous fathers, the famous enemie of us, Benjamín Campos, and Adonái Corréa, that are not there living, but were goin- (Adonái lived a time there) with bússes full of people. I think these about the jesuit is important for you to know.

The people of the village that don't addept the heresies of the "group" are suffering bad treat from them. In the television enterprise the locutor spoke with one man of a family that had to go away. The man told that the "group" has many arms. There are two or several norteamerican mans. The locutor make the comentary that there could be a political movement, or could succed something as in the Guyana. The visionary woman says that the Saint Virgin calls for blood, and when the angels give the sign, blood will be as they ask!

But you see, they have the "bene placit" of the bishop of the place! That is all for today.

P.D. Anacleto called me by phone a minutes ago, to tell me that the six boys that are going to the Seminary of Mgr. Vezelis are in Guadalaajara now; the friends of Guadalaajara helped looking for the "visas" and the boys will go as "tourists" for a month. Once they be with Mgr. Vezelis, he will do another things he knows to do the boys permanence there. Pray for this, please! Three boys are from Acapulco, sendeb by Mgr. Carmona, and three from Guadalaajara.
