Dear Dr. Heller:

I beg you to excuse me because I have not written you before receiving your letter where you tell me that all the dollars I received in two envelopes are for me! I have been writing slowly a letter about this and about the problems we have here with bishops and problems in general, but I can not finish it yet a cause of the bad time we have this winter that put me worst in my pains; we are at four or zero grades as never in our history.

Well, I will send the another letter in a few days more, I hope. Know, this is for give you out thanks, -from my mother and I-, for the money, that comes to be the solution of our anguish in the economical question. And I beg you to tell me please the name of the good friend that has did this great charity with us; I wish to thank him personally. Our Lord will pay him and you for this as we pray for, and as He has promised. Certainly, it was a great surprise for me to know I have such a quantity. I was at a point to suffer an a heart stop!.. Thanks very very much.

I am going to help a little to Lic. Salinas; I always think in help my friends in necessity for the cause. Lic. Salinas continue writing "Ariete", and is the man of confidence to visit and try documents personally in the -- UNION. I will put the money in one bank, after having pay debts, and the money will give my mother and I the necessary peace to suffer in the another ways, but not so more in the economical question.

I finish now, wishing you and all friends benedictions for this year, and please give our greetings to the friend that has send us the money, waiting to know his name to write him personally. Pray for us as we pray for you. And thanks for the beautiful book about "Der Creglinger Altar"!... I enjoy it daily; I never finish contemplation of beauty; How great artists!...
