Dear Dr. Heller:

I hope you have received how my last letter where I told you about the Press Conference that Anacleto wants the bishops have to give to the press the document being all them together after the meeting, with a great propagand.

I asked if you would be accord with this and begged you to communicate it to Anacleto.

Well, I spoke this morning with Mons. Carmona about this press conference, because I have some preoccupation about the security of the bishops doing so much sensacionalism about them and with them all present. Mons. Carmona told me that he didn't know anything about the press conference! That Anacleto only said him that it would be better if the meeting was in Acapulco in his church, but nothing about a so sensational conference of press and probably another communication ways.

Well, I am deceptioned with Anacleto. I think he was thinking to take the bishops by surprise, sending to them all the press people without knowing the bishops nothing before, because Anacleto thinks that there is a danger in that conference in public, and he says, so he told me when I spoke about this with him, that people will take care of the bishops in the church.

Two things. Anacleto didn't write to you as I beg him two wicks ago about the press conference, and he didn't told his plain to Mons. Carmona. Very very bad!

Mons. Carmona became angry with this things, and said me that they, bishops, wanted and want to have the meeting in the must secret posible. He don't wants to do it en Acapulco. Mons. Martínez who is yet menage of killing, and suffer the attack when he was in Iqualapa temple, and the another mexican bishops, said me Mons. Carmona, think that is very dangerous to do public declarations or press conferences. They think that as Mons. Carmona has planied, it is better for them security to do the meeting in a secret place in a little village where Anacleto don't know, and having the document, once that norteamerican bishops and the mexican had going to there places, give the document or a memorandum of it to the press, yes, but without the dangerous conference.

I think this will be the right thing to do, because here in Mexico we know the postonciliars, in union with the government that is with them, are very angry, for the Declaration of Mons. Thuc that the bishops signed. I think and bishops too, that we must not expose them to an attack that can be posible, to all them, or to some one of them, in ocassion of the press conference if they do so.

Mons. Carmone is going to call Anacleto tonight about this. I tell you all things to be in accord. I beg you if it is posible to call Anacleto if it is time, -the meeting is in day 23 in this month-, and see how to do him understand the very riesgous that is what he pretends. When he takes an idea he does all to go on

About a home for Mons. Thuc, I think it is better for him to stead with Mons. Vezelis for a time, this, for the danger for him, worst of clime. If Mons. comes to Mexico at first I doubt if government is going to let him come in to the country. After this we must think in security for Monseñor. It is very difficult.

Summer is coming and I think Mons. will be better of his illness than in winter.

Dear Dr. Heller:

I have been very preoccupied with this questions. I received the very good document of Mons. De Lauriers. Only I see that he is against the "transcendental philosophy" of the Germans. But all is very good; I am sending the document to Anacleto to translation and send it to bishops in the meeting.

Pray for us, all. Our enemies don't rest. They are angry and I think decided to all. It is what for I fear about our bishops. The enemy if wants can finish with all in a day.

I hope you will help us in all this with your letter or call to Anacleto. I think there is not time for a letter. Anacleto did his program without all us and the worst, without the bishops knloulded Yours in Jesus Christ
