

Tampico, march 8-85

Dear Dr. Heller:

I am writing you to thank you the two cheks of dollars Dr. Hiller sent me, and I add to this a little letter for him and other to Mr. Wourfbaum. ;Thanks in my mother's name also!

I want to give you news of this days.

1.- The postconciliar are giving us the battle a cause or with the pretext of Mgr. Thuc (R.I.P.) death. At first, it was the note in the "Osservatore" as you know, saying lies about a "retractation" of His Excellence. Now, the bishops of the diocesis of "Guerrero", where is Acapulco, are writing letters to Mgr. Carmona private and public and with documents "oficialy" begging for his own retractation and of those who are with them.

This campaign is growing with the publication a few days ago in the national newspaper "Excelsior" of Mexico city, where the voicers of the "Mitra" has given declarations saying that "Mgr. Thuc had writen a letter to Mgr. Carmona ;five months before his death! telling Mgr. that His Excellence has return to the Saint Church recognizing Juan Paulo II, and beggin Mgr. Carmona to do the same.

Mgr. Carmona never received such a letter. And the documents and newspapers that asure such a thing, don't reproduce the letter, only fragments. Mgr. Carmona has writen to the bishops and to the "Excelsior" a good answer. I am going to send you copies of all this. I don't know if Mgr. Carmona did this, but I am going to do it also. Mgr. Carmona is having dificultades with the mail, that is not arriving to him. We think all this is part of the "complot". I am going to do copies of the documents and send in a few days more. I have the great problem of my mother sickness; this, added to my own. At this, you don't know what a great aid has been the dollars I have received now. God will recompense you all.

2.- The young man I told you will visit you D.M. intermediary now into Union Trento and the group of the University in Guadalajara, came to visit me and we talked large about problems. About him, I was in an error; he didn't was a seminarian of the post-conciliar; he was in Ecône with Mons. Lefebvre when things were in good way there as we thought for a time. Héctor Gómez arrived to be one of the confident young seminarians in Ecône, and was his private assistant in the traduction of the letters Mgr. received in -- spanish. So, Héctor knew some of my letters sended to Mgr. Lefebvre about negatives of our Union to receive him in México the first time if he insisted in go acompany of a false traditionalist jesuit enemy of the "Sede Vacantis" reality, and so other letters mine and of -- other friends. Now I think if Héctor Gómez was sended intentionally to Ecône by our friends of university to have a person near to Mgr. Lefebvre for a good information. If it was so, they did a good work. Héctor has a very good formation because he was a pupil of the groups university has for secondary and preparatory students.

Thanks.,

When the four seminarians that Guadalajara has sended to Mgr. Vezelis return to their city, (two escaped from the seminary and called by telephone for aid from a public garage), they were for a time in a house with Héctor living as franciscan freires and taking some classes from him, but this was not posible; it was not a seminary, and the friends close this program. Now the boys are in their homes but they have not abandoned their idea to be priests. Also the young man that was the first with problems with Mgr. as I know from the friends (I don't asure this as if I have been a witness) and begged Mgr. Altenbach (before his consacration was this) to give him protection during a visit to father Altenbach, this boy, I say, return to his home in Colima, and other two to Acapulco.

Well, friends in Guadalajara begged to Mgr. Carmona to admite to attend a Seminary that they will support near of Acapulco, with the aid of Mgr. Bravo. But Mgr. Carmona didn't accept because he has, -he says- too much work with all the new little cities and groups -- that are coming to look for Him. And there are the groups that Mons. Zamora and Martínez attended and that people don't wants more nothing with them. Well, we understand that it is very good that thousands of souls coming to the truth and begging for the Saint Mass and Sacrament are looking for the two mexican bishops, but if we don't have a Seminary for the new priests, all the seeds will be lost. So, we are - begging Mgr. Carmona to accept to have the seminarians atention. I hope I will have the visit of Mgr. Carmona after the Easter about all this. There are also many woman vocations for religious life, and we need very much "catequistas". My health and the problems with my mother don't leave me do what I should like: to found this Congregation and also finish my life beang a nun! ....

Héctor Gómez will do de a visit to you in next april after day 15. At first he is going to contact several spanish priests that are in our line, and to Italy, perhaps, France, etc., to observe - movements and do contacts, and with you to talk about problems, common problems. Things he will tell you I know from other persons also.

3.- Mgr. Vezelis is doing now an extense campaign against all us: Mgrs. Carmona, Bravo and Musey, and Union Trento, wrriting letters to traditional priests and persons, saying that we are jewish and that only he, with Mgra. Zamora and Martínez are the realy catholic movement. We are infiltrated and so are bad to him Mgrs. Altenbach and Siebert. Mgr. Siebert has suffered a heart "attack" and has a paralisis of half of the body, but he is in mental health no obstant he can not talk; Mgr. Musey went to give him the holy Sacraments, and the unique word Mgr. Siebert can say, is "Amen". Mgr. Musey says that probably the pains a cause the attacks of Mgr. Vezelis could be the cause of this sickness. Mgr. Musey will come to visit me and our group of Tampico, when Mgr. Siebert has a sign to know what is his reaction to the treatments. And Mgr. Musey is going to contact too to Mgr. Carmona and Bravo in Mexico.

4.- I finish now begging your prayers for all us. We go on, with the aid of Our Lord. I will give news you soon D.M. Greetings from my mother. Yours in Christ and Saint Virgin,

¿Can you please write me if you are going to stand in your adress in Munich in days 18 to 30 of april when my friend is going to europe?

Thanks.,
