Dr. Eberhard Heller  
"Einsicht"  
Munich

Dear Dr. Heller:

I am very ashamed for have not written to you in several months; the motive is that I did a great effort to write the new book I am sending you, "Jewish Infiltration in the Church", and I became worst of my eyes, heart, etc., but we have publish it, and I am sure it is good to give to know more about this terrible question to catholics. Waiting to can write you a large letter, and to thank Dr. Hiller and Mr. Woufbaum for money they sent me, days have been going, and today I write you about the most importante question I must give you to know over here in Mexico.

At first I tell you that all friends in Mexico City and my family there are allright, (thanks to God). But I could not know about it ~~sure~~ soon. We had terrible days.

I knew that air mail was not well and I wait to be sure that my letter to you sholud go save; so, that is other motive of my delay. Pardon me please.

I am going to see how much I can write now in this. Forgive my mistakes because I don't see well now with the left eye. I need new spyglasses after this last inflamation (uveitis) and I can not go yet to see about this because I can not go out of home. Most of days I have been in the bed.

#### 1.- Question of Jewish.-

The book I am sending you with dedication for each one. I wrote It for petition of friends of Guadalajara. They payed the edition. Editorialist did'nt finish it soon. We had many difficult because the books here in Mexico for circulation have to have the "Editorial", and editors don't want to have compromises with us. But this book is now going on.

Well, now I have the comission from friends of Guadalajara to do a work about a document we have obtein by secret way from the Vatican. This document contens the program for the reunion that bishops of enter world (of the new church) will have in next november. The question to see is give a good push to the jewish mentality in the church. I have the document; it is terrible. They are goint IN THE NAME OF THE CATHOLIC CHURCH, to see the increase of works of revision the DOCTRINE and Liturgy to eradicate of them all that can seem an "antijewish" expresion, moving people to accept revisions about the New Testament, and not only thease, but to begen a movement in enter wourld by all comunication ways, (they say, press radio, cinema, etc.,) ~~have~~ to favor the jewish and finish the "anti-semitism" -they say- in all its ways.

We catholics must know, now, with much more certain from where has come the must terrible attack to the Saint Church. We have more proves today, and after this nobody can say that doesn't know the truth about the enemie. The postconciliarse have lost the fear (;Oh what great sadness!) to the bishops or priests and catholics...

because they have seen that the oposition has been only did by little and divided groups. I think this is the must terrible moment of the night of the Church, and I don't doubt that it is to come a terrible punish over the world for the new crucifixion of Our Lord, that this is certainly what is happening with this "complots", complots not secret, but published in the press about its plains.

I am going to do other effort, even if it is the last of my life, because I am filling very sick, but for many years ago I have been lerning to have an special information about the jewish conspiracy, and if the friends are begging me to write about this infernal document, and they can publish the book, all is saying -- that Our Lord wants from me this little sacrifice, with His aid.

I am adding copy of this document for you. I could not traduce it for you, for my dificulties of sickness, and I prefer to -- send it in spanish now. I beg you to keep this in secret, that I have send you the document, and to wait to write about this still in next november postconciliars will give to know it in Rome. But I think it is important for you to have this. I think that it was providencially that I wrote the first book about the jewish infiltration. This prepared the way to the future events.

I know that you in Germany can not write about jewish -- with all freedom a cause of the last "nazism". So, I don't know if you can write in Einsicht about this. You know if you can publish something of my book I am sending. About the document of postconciliars, friends sent it to me secretly, but I have not secrets for you; we are in the same battle, you are as me, you are me. Please only don't say the procedence of the document. I think you must -- know it.

## 2.- Jewish menace us.-

In the same time my book begun to be know, Anacleto wrote a document for the press without asking Mons. Carmona and me, nor any other of the Union if we were in accord with him. This was a mistake, because all members of the Union in the Directive have to present there plains or documents to Mons. Carmona and to me, because I am the Comissioned for Press.

The document of Anacleto is about a politic movement he is founding now, and he calls it "Independent Movements". In his document he says that in this moments people has to be with the -- mexican government now in the power, with De La Madrid and the revolution. He says that the "RAN" "National Action Party" is financed by the jewish of Monterrey city, and that the are more dangerous than the revolutionaries of the party in the power. He has mention numbers of several jewish that certainly, we know well that are the power of money in Mexico and patrocinator of a movement of favor to the jewish, in pres, television, etc., here in Mexico. And Anacleto says that his own party, now with a few members, will give oportunity of action to catholics, etc.,

He has envolved in his movement people of the groups of Union, and as he is known as distinguish member of the Union, many people thinks that his own new movement is other way of work of Union Trento in politic. This is a wrong way for Anacleto. When he told Mons. Carmona and me that he has sent his document to the press, we had a great disgust. We never wish to be involved in politic -- questions with our Union. Then Mons. Carmona sent a letter to Anacleto saying him that if he wish to go on with his plain, and without autorization for his movement and document from His Excelence, it

was better to Anacleto to present his renounce to the Union. We were expecting the renounce of Anacleto because we know him well. He has sometimes "epchs of independence" and nobody can may him to abandone his ideas. He thinks now that the politic way is the good to give the battle to the jewish that aid to the PAN party, and no one can move him.

Now he has written a letter to Mons. Carmona with copy to me; I don't know if to you also, and he presents his renounce to the Union Trento.

This is a sad new, because I think the movement of Anacleto not only is going to die in the origin, but he has a double damage: to the Union with his movement and document, and lefting us when we more need him with us. He is the head of the movement of the Union, or, he was, in Mexico city.

Well, my book don't mentions jewish political complots here in Mexico. Only gives the names of does that are envolved in the complot against the Church years ago before the council, in the council, and now, about religion, and I also mention the complot that jewish have to be the lords of the world,

It is very important for you to know what has happen. We think in the to questions, my book, and the document of Anacleto, this document that the press didn't coment here in Mexico, and no accept to publish in paid insertion. (Friends of Guadalajara are disgust also with Anacleto, because He involved them, no mentioning them, but because enter world knows he is one of them). Last month appeared several themes of periodists of "Excelsior" the newspaper of Mexico city must known (comunist and pro jewish). One periodist of Excelsior that send news from Germany, had an intervieu with -- the jewish banker Samuel Rosenthal, in Bonn. The periodist send to Excelsior article that says in summary, that:

Rosenthal declares that he and them (jewish) knows about a "serie" of antisemitism new nazis movements in America that are giving the battle against jewish. He advertice that they are not going to leave reborn the nazism anywhere, and they are going to see-  
\* look to destroy this movements. To those who promove them, in the article is a menace: we must remember the existense of letters or packages with bombs!/  
/

Well, we think that it could be a cause of the two things: my book, and the document of Anacleto, that appeared this articles. Anacleto become very frightened but he continues his plain, and nobody can desapeare his document he sent to "Excelsior" at first.

About me, I don't fear bombs that kill body but not soul. My house has not any defense. My doors are in the board of the street it is very easy for anyone to put us a bomb or damage us by any way. But this probabilities are not going to make me keep silence. I will do with the aid of Our Lord all I can, no obstant I do all more slowly now a cause of my pains. The next book will be the ;Maxim! If for the first I am sending you, jewish don't kill me, about the second I don't know. If you hear that I have fly in million of little stars, a cause of a "bomb", you know now the cause.

I only don't say about this danger to my poor mother. She is very ill to support other tension about me, and all in the house.

Well, Dr. Heller, I have other news and things to tell you, but I am going to finish in other tomorrow because I can not see well and I am begening to work after a long time of forced inactivity.

The books are going by airway. I beg you to submit to friend each one.

I am adding a letter here for D. Heller and to Mr. Wufbauer. I think it is better now to send only an envelope. Than you for give them their envoys.

Good night now. (This don't keep any bomb!)

I beg you please to write me a few <sup>lines</sup> ~~letters~~ (I wish a large one, but I can wait) telling me if you have received this, and the books. Sometimes the tickets of the certificate delay too much in return. Now there are to much problems in Mexico city with the mail a cause of the "terremoto". I also fear about a complot against our correspondence. "They" are verywhere, and I say this about the post-conciliars, not only about the others.

My mother send you her greetings. Mine for all friends with our prayers. Pray for us please. Soon other letter (D.M.).

Your sister in Our Lord,

*Glavin Ristra*
