

October 29-85

Dear Dr. Heller:

This is continuation of letter I sent you in day 17 of this month. At first, I committed a mistake about the dollars Dr. Hiller sent me. I am seeing in my letter I said thier was four cheks of 307 each one, and their were of 362 each one. I beg you please to tell this to him, thank you very much.

Nos I am feeling so bad that Dr. is looking if it is better for me to go to the hospital several days, but I have the work of the answer to the document I sent you. Pray for me to do this. I go on with questions, and I begg you to write my a few letters if you have received the three things I sent you in 17: One letter, the dobument in other envelopment, and a package of - books.

1.- About the document with jewish plains in the Church that I sent you, the reunion is going to be in Rome, in next november 25, Willebrand is the author of the document, and now they have publish it in "The Ossevatore Romano". Now everybody can speak about this terrible question. Friends tell me yesterday that my work is going to be publish (my new sork that is an answer to Willebrands document), with a pseudonym, and probably at first in Italy, in italian. I don't like pseudonyms and have never use them, but friends say that it is better now, probably to give more importance to the book; I have accepted if it is for a better final.

2.- About a probably erect of a seminary, here is a good notice. It is a constant preoccupation of friends, and there are eight semindrians that came from New York after that ugly affair. And other vocations in several groups. We have invited to Mons. Bravo to take the seminarians, and His Excelence has accepted, he is 85 old but very inteligent and in mental health. At first, He is a man of God. Nos the questions are two: Friends are looking to erect the seminary if it is possible in the next cities of the United States, as must secretly it is posible, to have no problems in Mexico, and to have the Seminary without the problems we have here, Mons. Bravo is in good health, but He needs more teachers; this are goint to be laymans. This proyect is good. Friends can support the seminary, but I will advice you when and where it will be, and your aid will be good, sending it to Mons. Bravo. We as you think that it is no possib to let go the time without a seminary. This is a good proyect. Mons. Bravo is going to abandone the groups and villages that He attends, and Mons. Carmona is going to take them. Mons. Carmona will visit the seminary and help something, but He as we have seen, can not take the seminary himself; every day more and more cities call Him (Thanks to God! People don't use uniform. That was a personal idea I Had last time. They are catholics without more sign that fidelity.

I finish today. Greetings for friends, and I expect your letter to tell me if my letters and Package you received.

Yours in Jesus Christ,

*Gloria Prieta*

P.D. I have find a terrible mistake mine in one of my old letters to you; in one where I tell you about the Document a wrote to help our bishops in their reunion in Ge Acapulco, I say you that "if I can obtain some money I will send you the document". It seems that I am "selling" tou this paper! Now I beg you and friends for this mistake; I was expecting in those days a lend of money I had asked for because my situation was difiicully and I had a lot of ocrrespondence

I could not send to other countries. I want now to explain for you that I my word about "obteining money" were about this lend of money here, and not a selling of the document to you!

I am sending in other envelope this Document bishops dinn't used, giving us that confusion of letter you remember. I think in a future it can be use (my document) by Mons. Carmona and Bravo with new questions, as the jewish one, added.

Please pray for me with hardly in this days I fill so bad and can to finish this new document.

Greetings from my mother.

P. D. Title of document about reforms to favor jewish, that I sent you and now appear in L'Osservatore" is:

Comision for religious relations with Jewish

NOTES

For A CORRECT PRESENTATION OF JEWISH AND ~~US~~ (JUDAISMO) IN PREACHING AND CATECISM OF THE CATHOLIC CURCH.

Other P. D. I have spoken with Mgr. Carmona that has called me by phone. He has return of a pastoral visit to great groups in several great cities. He has gone to Baja California, to Tijuana Mexicali, La Paz, Tecate. Now he is going next week to Chihuahua and Torreón. If His Excelence doesn't goes, we have not a pires to help. So, He says that it is better Mgr. Bravo to has the seminary.

About Héctor Gómez, he went to Ita y and France, but he didn't you the anonced visit because the question was very delicate and hard, and friends thogut that they in the group of Guadalajara was going to be involved in the question of Vezelis. Hector is a good witness of the ugly question, and for the good of the Curch and our work he wanted to tell you all he has seen and known personally, but he has to obey the last disposition. So, in Italy he attended questions of the group, and as I have begged him, he intented an interview with Mgr. Arrigo Pintonello and tried to see him, but when he said that he was my friend, people on the house of Mgr. didn't left him to see Mgm. It seems that Mgr. is in a hard vigilance.

In France Mr. Gómez visited Louis Marie de la Bligniers, but this priest is a "Sede Vacante" convince, but it don't accepts our way of consacrate bishops. He told Héctor he have the proofs of several ordinations and consecrations of heretics or schismatics Mons. Thuc (q/u R.I.P.) did.

About the documents father Blignieres has, it is good, about vacancy, heresies of the anti-popes, etc.,
