

Tampico, October 3/84

Dear Mr. Heller!

What are the news about your baby? Please tell us when he arrived! Or not yet?

I am writing to Mr. Heller and to Herr Wairbaum as I have received the 823 dollars sent me! Thanks very much!

Mr. Heller, here we are very preoccupied with the problem of the Saint Church. Do you see any solution? We not! I think it must be good we to have other bishops. Catholic bishops. But here we have not candidates. In Germany there are not? We think that our bishops Mons. Carmona and Bravo are old age ones, and if it succeed that they die, without success is what will happen? It is so great the problem that sometimes I can not sleep, and I think you also.

Here all we are doing what we can. The seminary in Veracruz, the Benedictines Community, the groups, etc, but if we have not

Apostolic succession all will become
useless!

I should like to know your
opinion about this.

Just times in the Church
Popes were elected as you know
by the people about acclamation,
popular acclamation. In the future
I think many of this means of
yesterday could be used! We need
at all a great work of unity
with catholics to have in all
the world a same vision of
the problem and the possible
solutions, not more but in the
future; now we have not
enough bishops, and not anyone
to say to the catholics: This
man could be the Catholic Pope!

This are only disquisitions,
reflexions for you.

Our greetings for friends and
for your dear family!

I wait for your letters always
God bless you.

Cardially yours in
Our Lord and His Holy
Mother

Gloria Prioste
