Dear Dr. Heller:

I have received a Check for 180 dollars that you have send me, and I was waiting for a letter saying what for is the money, but as I have not received anything, now I write you to beg you to tell me what for is the money, and I thank you vey much for this.

Mr. Wurfbaum sends me each four months the money with he aids me, and as it is time he sends -Dr. Hiller puts the checks-, at first I thought it could be this money, but I don't know. *I have not received money from him this month.*

I beg you please if something happens and it is no posible to Mr. Wurfbaum to help me more, you to tell me please, to see what I do, because money he sends me is with I live. Please tell me about! I am conciencious that some time it can succeed that Mr. Wurfbaum can not help me more, but I must know. We hope he is in good health and also Dr. Hiller.

Thanks vey much for the money, and I wait to know about what to do with it.

I was last week in the hospital with complications of my illness but I am better now. My mother with her complications, and I with all doors close for me, I can not live more of writing as you know, and with my sickness can not go to work in other work, classes, etc., as years ago. But we hope in Our Lord will not abandone us.

Here there are not news. We have not known anything about Mr. Musey. He never calls or write Mgr. Carmona. It was an exception the case of go to europe. Now I beg you if you know about it, to tell us please something about the antipope Peter II of the movement of Mrs. Hagen. I have not other way to know, and probably you have more notices; I only have the "enciclica" he sents copy to Mgr. Carmona. I will send you a copy of this. Please send me if you have notices of this man.

Also in other I will send you articles -mine- I think can interest you perhaps for "Einsicht" about # how thinks Wojtyla, mason, and the names of the 121 postconciliar bishops and prelates masons, or probably masons.

My mother sends you greetings, and also for your dear family and the friends. Pray for us please, and we pray for you. Kisses for Katherina!

Sincerely yours,

Glavin Riestra
