Dr. Eberhard Heller
Munich

Dear Dr. Heller:

I have received the check for 144,45 Dls., Thanks very much! Tell the person has send it to me how oportunity and providentially it has been! Our Lord don't abandon us. Thanks you very much' and to the good benefactor!

I have some things to tell you. Mons. Carmona is coming next week to speak with me. He has an invitation for a movement that Miss Heidi Hagen is organizing in Germany, and that has people in the United States. Probably you know about this, but if not, here are the notes.

In letter of 30 of may Mons. Carmona tells me:

"Many don't can resist more the carence of an authority to guide all us in the present situation of the Church. So, Miss Heidi Hagen thinks that one bishop - O. Cravec is a good candidate to be Pope: Oliver Cravec. She has send a letter that says:

"Dear fighter for the restoration of the Kingdon of Christ: Bishop Oliver Cravec would be the best candidate. Please let me know about further developments concerning an "Imperfect Council".

Mons. Carmona says me that he don't know who is this Cravec, and begs my opinion. Now, when he comes here, I will say him that we must not involucrate with unknown bishops or movementes that are not seious. I think you think the same. Tell me please what you think about all this as soon as posible.

This group wants to convocate the Imperfect Council. I think that the intention is good, but things - must not do with so a precipitation. There must be a great mundial movement of union of catholics before the Imperfect Council. A work of instruction founding at first an "International Comite for the Vaacant Sede", a reunion f or the dirigents of the groups of the world that are serious, to study at first the questions, and to give instruction to the people. All the rest would come after. Priest, traditionl priest in the world must be take in a "Union", and about a candidate to Pope it would be studied seriously! At first, M. Hagen sends only this note I have cited here, and she -- don's says nothing about sho is this Cravec. I repit, here intention is good, but that is not the way, I tink.

In the United States there is an ignotant Fray, Fray Jan Dierdazan (145 Margueretta Street, Toronto, Canada) In Canada, don't in the United States. Pardon me. This man sent also letter to Mons. Carmona, letter that he or one

one group with him, is distributing. The title of the letter is "One call to the Fight". I am sending you it in english here. He sent it in spanish to Mons. Carmona.

I say he is an ignorant because he is saying to bishop Craven that bishops are not sucesors of the Apostles but only delegates of the Pope. That is an error. Catholic doctrine is that bishops -catholic- are sucesors of the Apostles. This Fray Sierdzan that we don't know who is, wants to organize catholics of all the world also for the Imperfect Council. As he is discussing with Cravec, we don't know if he is with him to be pope, or is this is another movemente. It is natural that in this terrible situation many people wants to do things, with good intention or also with bad, we don' know. We must know about this movementes

I hopw you and your dear family and friends are all well. We here with the problems, the same. Pray for us please. Mons. Carmona working hardly. Have you not a priest to consecrate him bishop in Germany? It is urgently to have more catholic bishops but sith garanties.

Greetings to all you from my mother also. She agree very much to the benefactor sends us the gift!

Cordially in Jesus Christ,

Gloria Riestra
