Dr. Eberhard Heller  
Einsicht  
Munich

Dear Dr. Heller:

I wish you and your dear family are all well and little Ana Catherina is growing very pretty!

I have received de dollars Dr. Hiller have sents me from Mr. Wurfbaum. I have written them.

There are very much neww in this days. What do yo think about the friendships betseen Gorbachob and -- Wjotyła "Atila"? It is only the visible triumph -passenger- of the enemies, it says to the world that the church in Rome is not more the catholic church. I think, my friend, that this is not only a comunist plain, it is a judish plain. It is a confabulation of all them, but judish principaly. Wale-sa waw received in New York for representations of 70 judish groups!... And the "liberty" comunist are giving to the -- countries they have, is a tramp. It is only for two things: First, to obtain aid from occidant, thay they could not ha-ve with they sistem of opresion as always. Second: to do -- thing to the foolish, -and bible says their number is infinit-~~thay~~ comunism is a good thing. Comunism now is not totalita-ry, (but they don't give total independence to te countries) and comunism is not antireligious. Church, the truly Catholic Church, is not more an obstacle to have friendships including the devil, it is what for all them are now friends. It is te-rrible. It could be the end of the drama, as the crucifixion. But we must hope in the resurrection!

This is what I thing about all this. I whould like to know what do yoy think. About the two Germanys, you see that everthless the "liberty" tehy are giving, nobody wants comunist or not, the union of Germany. It is because all them are judish? All them are afraid of a people that don't believe in stories and can have again a great force abd power with own ways of think. That is all. But they have open a door and I say you that nobody could stop a movement for a union Germany! We wish this!

Here in the Union we are thinking in publish other book mine. There are many dificulties but it is not imposible. Pray for we can do this!

Greetings for you dear family and all friends. We wish you Merry Christmass and beg your prays, as we pray for you. This next year we will se many tings!

God bless you. Yours in Jesus Christ and His Holy Mother,
