Dr. Eberhard Heller
Einsicht
Munich

Dear Dr. Heller:

Congratulations for the unity of Germany! We hope it is going to be good for the Church also.

We had here the visit of J.P.II in May. The results of it are consigned in the article I am sending you in other envelope, 31 pages. If you want you can publish it in Einsicht. The reception was the "apoteosis" as you must know. Anacleto González Flores wanted to do a "mitin" but Mgr. Carmona and all us in the Union didn't want because there were a few people in Mexico the capital, and it was going to be ineffectively, dangerous for the people because there was many vigilance because President order to give garanties for J.P.II. It was not going efectively and the consequences were going to be bad for Mgr. Carmona specially that is having problems with the government in the cities he has churches and people. We thaught we were not going to do something good for the cause. Anacleto get angry with all us; sometimes he wants to do what he thinks without an accord with us. He is a very good catholic and we all appreciate him very much. We hope this incident is going to be passenger. We accord to do nothing about the visit of J.P. II. All would be only an imprudence. We are working for the Church by other ways as you know.

I hope your dear family with you are all in good health, and the friends also.

Greetings for all. I hope news. I am receiving "Einsicht". Thanks for it.

Yours in Jesus Christ,

Alvin Priester
