

Tampico, december 5 of 1990

Dear Dr. Heller:

I have received the beautiful calendar! Thank you very much and greetings from my mother for you, dear Ursula and the children for this Christmass and new year, and my best wishes. Calendar is very, very beautiful! You are an artist.

In last months I sent you two articles. One, the introduction to the book "Testimony of Faith", and other about the second visit of J.P.II to Mexico. I hope you have received them.

Here Mons. Carmona is working hard with his groups and the seminary. Lefebrists are working hard too, and know have in Mexico, the capital, great exit. What news are from europe? We don't see any solution. Soon I shall know something about a new group in the United States, of our "Sede Vacante" line. I will tell you about it.

In home I have problems with my mother that is 85 old. She has all the illness of the age. I have been much better of my sickness, and this help me to give her all my atention.

I hope news from you. I am writting Mr. Wurfmaum and Dr. Heller that have send me the dollars. Thank you very much for all, and merry Christmass for you, your dear family and the friends.

Yours in Christ and His bless
Mother,

Alvin Priester
