Dear Dr. Heller:

I have not unswer your letter I received because I have had many pains; my dear mother has died in may 2, and I falled in a great depression, as so I couã not write for many days. Now I answer your letter. In my dear mothers memory I want to tell you - this: She died RIP at 93 years old. She was native of this city. Her parents were Matías G. De Wolff Entringer, and Delfina Galván del Angel. Her sons were me, and my brother Rutilio Gustavo, who died in 1984. My father, her husband, Rutilio Riestra Núñez de Cáceres, died in 1952.

But I want to tell you that she supported me in every step of the battle for the Holy Hchurch. She renounced a cause of our position in defendig the truth, to great affections, as the personal friendship she (we have had with cardinal Ernesto Corripio, when he was a priest in this city and bishop later. She renounced sith me to ways economic to life, supported insults, calumnies, and all that thas the battle brought of exigences to be faithfull, and she died offering her pains for the Holy Church. My mother was all the time my spiritual aid and consolation. She had a great devotion to rosary and Via Crucis she prayed all time she could all her life.

I beg you prayers for She and for me. I am in a great sedness and felling very alone. But I bless Our Lord that I could give her atention all her life, specially in her last years. She died in a great peace; father David Contreras has beaing here reciently, for our comunion, and he celebrated here also, coming for it, two masses a dy after of her dead. I than to Our Lord for my dear mother, and I hope He will give me forces and patiens to support this great penalty. Pray for me please.

About article of father Krier, I tink it is weell, only I think that it would be good to add something about who does the invitation; if there is no information about this, -which group, its beggining, persons that lead the movement, etc., I think invitation can fall in disenteressdnes. I only tell you what I think about.

I wait to have more peace in my soul to send you the articles and poems. Now I can not think well.

Please tell to friends about muy mother death begging for prayers.

I am your in Our Lord and His Holy
Mother,

Glavin Riestra

Dear Dr. Heller:

I have not answer your letter I received because I have had many pains; my dear mother has died in my 2, and I failed in a great depression, so I could not write for many days. Now I answer your letter. In my dear mother's memory I want to tell you this: she died RIP at 93 years old. She was native of this city. Her parents were Maria G. De Wolff Entinger and Belina Galvan del Angel. Her sons were me, and my brother Rutilio Gutierrez, who died in 1924. My father, her husband, Rutilio Entinger, died in 1922.

But I want to tell you that she supported me in every step of the battle for the Holy Church. She renounced a cause of our position in defending the truth, to great afflictions, as the personal friendship she (we have had with cardinal Ernesto Corripio, when he was a priest in this city and bishop later. She renounced with me to ways economic to life, supported financial calamities, and all that the battle brought of expenses to be faithful, and she died offering her sacrifice for the Holy Church. My mother was all the time my spiritual aid and consolation. She had a great devotion to Mary and the Child and prayed all time she could all her life.

I beg you pray for me, I am in a great sadness and falling very alone. But I believe our Lord that I could give her attention all her life, especially in her last years. She died in a great peace; father David Contreras has been here recently, for our communion, and he celebrated here also, coming for it, two masses a day after of her death. I thank to our Lord for my dear mother, and I hope he will give me forces and graces to support this great penalty. Pray for me please.

About article of Father Rutilio, I think it is well, only I think that it would be good to add some thing about who does the invitation; if there is no information about this, which group, its beginning, persons that lead the movement, etc., I think invitation can fall in disinterestance. I only tell you what I think about.

I want to have more grace in my soul to send you the articles and poems. Now I can not think well.
