Dear Doctors Hiller and Heller,

I am presently writing a rather lengthy report on the consecration of Bishop Guérard des Lauriers. After our meeting in February 1988, I returned to America with the conviction that the consecration took place and was valid. Fr. Kelly and Fr. Jenkins, however, did not agree.

The issue is being discussed very hotly at the present time by the priests of our group. As I have taken the position that the consecration is valid, I am writing a report to be delivered on May 2nd at our upcoming meeting.

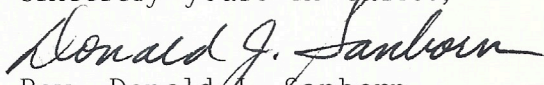

It would be very helpful to me if I could obtain from you sworn affidavits (eidliche Erklärungen) testifying to the fact of the consecration, your participation in it, the date time and circumstances of it, the fact that the 1908 Pontifical was used, and, very important, that Archbishop Thuc was in his right mind.

With this testimony as a part of my report, I believe that I can convince the other priests that the consecration took place and is valid.

I hope that you will cooperate in this matter, as it is most important for posterity.

Thank you and may God bless you.

Sincerely yours in Christ,

Rev. Donald J. Sanborn

P.S. An affidavit in German is preferable.
